NIRUPAMA BEHERA

Senior Frontend Lead | Angular & React | Frontend Architecture | AI-Assisted Development

Bengaluru, India | +91-7899021263 | nirupama13@gmail.com

PROFESSIONAL SUMMARY

Senior Frontend Lead with **10+ years** of experience in frontend development, architecture, and technical leadership across **BFSI, Education, Telecom, and E-commerce**. Expertise in **Angular, React, TypeScript, JavaScript, RxJS, NgRx, Redux, micro-frontends, and REST APIs**, with experience driving technical design, code reviews, mentoring, delivery planning, and engineering standards. Hands-on with Claude AI, GitHub Copilot, MCP, and **Spec-Driven Development (SDD)** for AI-assisted coding, testing, and design-to-code workflows.

CORE COMPETENCIES

- **Technical Leadership & Frontend Architecture**
- **Frontend Development** — Angular 9/11/12/13/18/19/20, React 19, TypeScript, JavaScript
- **AI-Assisted Development** — Claude AI, GitHub Copilot, MCP, Spec-Driven Development (SDD)
- **State Management** — NgRx/Store, Redux
- **Micro-Frontends & UI Architecture** — Vite, Modular UI, Responsive UI
- **API Integration & Security** — REST APIs, Keycloak, Enterprise SSO, RBAC
- **UI Technologies** — HTML5, CSS3, LESS, shadcn/ui, Material-UI, Bootstrap
- **Testing & Quality** — Jasmine, Karma, Jest, Unit & Integration Testing
- **Engineering Practices** — Technical Design, Code Reviews, Mentoring, Agile/Scrum, Technical Documentation
- **Tools & DevOps** — Git, Bitbucket, Jira, VS Code, IntelliJ IDEA, CI/CD
- **Database** — SQL, Oracle SQL, MySQL
- **Cloud (Azure)** — Hands-on expertise to develop and deploy applications on Azure, including services such as App Service, Azure Functions

PROFESSIONAL EXPERIENCE

Delivery Module Lead | MPHASIS PVT. LTD., Bangalore *Aug 2021 – Present*

- Lead frontend development and delivery, owning UI analysis, technical design, implementation, code reviews, delivery planning, and mentoring.
- Lead frontend development for **RuleIQ** using React 19, TypeScript, Redux, Vite, REST APIs, Keycloak SSO, and micro-frontend architecture.
- Drive micro-frontend architecture to modularize large applications, enable build isolation, and support independent deployment.
- Design and integrate RESTful APIs and implement enterprise SSO and RBAC using Keycloak.
- Leverage GitHub Copilot to accelerate development and promote effective AI-assisted development practices.
- Drive code quality through code reviews, unit testing, technical discussions, and engineering standards.

Advisory System Analyst | IBM PVT. LTD., Bangalore *Sep 2017 – Aug 2021*

- Developed and maintained enterprise web applications using Angular, React, TypeScript, JavaScript, HTML5, and CSS3.
- Translated UX wireframes and business requirements into responsive, cross-browser-compatible web interfaces.
- Collaborated with UX, business, QA, and development teams to deliver frontend features and resolve technical issues.
- Developed unit tests using Jasmine/Karma and supported defect analysis, compatibility testing, code reviews, and onboarding.

Technology Lead | COGNIZANT TECHNOLOGY SOLUTIONS, Bangalore *Jan 2014 – Sep 2017*

- Developed and maintained client-facing web applications using Angular, JavaScript, HTML5, CSS3, Bootstrap, and jQuery.
- Implemented frontend features based on business and technical requirements while maintaining application quality and usability.
- Participated in Agile/Scrum ceremonies and collaborated with cross-functional teams throughout the development lifecycle.
- Supported UI design, debugging, technical documentation, delivery coordination, and application quality.

KEY PROJECTS

RuleIQ — BFSI / Financial Services

Tech Stack: *React 19, TypeScript, Redux, Vite, Micro-frontends, REST APIs, Keycloak, shadcn/ui*

Enterprise multi-tenant BFSI platform supporting loan-processing workflows for Bank of America and Wells Fargo. Built role-based dashboards and workflows using React 19, TypeScript, Redux, Vite, and micro-frontends, and implemented Keycloak SSO/RBAC. Optimized UI architecture with shadcn/ui, reducing bundle size by approximately 95%.

Schneider Electric — Energy / Industrial

Tech Stack: *HTML5, CSS3, JavaScript, TypeScript, Svelte*

Designed and developed responsive frontend applications using JavaScript, TypeScript, HTML5, CSS3, and Svelte. Performed requirement analysis, bug fixing, code reviews, client delivery, and cross-browser/device compatibility testing.

JPMorgan Chase & Co. (JPMC) — Banking / Financial Services

Tech Stack: *Angular 12, TypeScript, JavaScript, HTML5, CSS3, Jasmine, Karma*

Developed and enhanced enterprise frontend features using Angular 12, TypeScript, and JavaScript. Collaborated with Product Owners and technical specialists, prepared test documentation, and implemented unit testing using Jasmine/Karma.

AT&T — Sales Express

Tech Stack: *Angular 8, JavaScript, HTML5, CSS3, Node.js, jQuery, Oracle SQL*

Developed frontend applications using Angular 8, JavaScript, HTML5, CSS3, Node.js, and jQuery. Supported information design, feature development, technical documentation, debugging, defect resolution, and delivery.

MetLife — Insurance / Financial Services

Tech Stack: *AngularJS, JavaScript, HTML5, CSS3*

Built responsive web applications using AngularJS, collaborating with UX/VD teams to deliver user-focused interfaces. Performed cross-browser compatibility testing and supported defect analysis and resolution.

CERTIFICATIONS

- Microsoft Azure Fundamentals
- AWS Certified AI Practitioner (AIF-C01)
- GitHub Agentic AI Developer Certification

KEY ACCOMPLISHMENTS

- DYNAMO Quarterly Awards — Cognizant: Recognized for outstanding overall performance, consistent delivery, and contribution to project success.
- Star of the Month Award — IBM: Recognized for outstanding performance, delivery excellence, and valuable contribution to project success.
- Pinnacle Award: Recognized for successfully delivering a critical project with strong execution, quality, and timely delivery.

EDUCATION

- B.Sc. (Information Technology) — Kuvempu University, 2009
- GNIIT — NIIT, 2010
- XII (Science) — CHSE, 2006
